Summary

MERN Stack development with hands-on experience, scalable server-side systems, RESTful APIs, and production-ready CI/CD workflows. Skilled in Node.js, Next.js, MongoDB, PostgreSQL, AI-assisted development, authentication, and building scalable systems using AI prompts.

Education

Silver Oak University 2022 – 2025

Bachelor in Information Technology

- CGPA: 8.53

Ganpat University 2019 - 2022

Diploma in Information Technology

- CGPA: 7.58

Experience

Thinktanker Present

NodeJS Developer

- Worked on scalable production systems using Node.js, Express.js, MongoDB, and PostgreSQL while contributing to both backend and frontend development. Built REST APIs, implemented secure authentication, optimized database performance, and worked on multi-tenant CRM architecture with role-based access. Also collaborated with AI tools, CI/CD workflows, and deployment processes to ensure scalable and reliable production systems across projects.

Gravitas Technosoft 2024-25

MERN Stack Developer

- Developed scalable production applications using Node.js, Express.js, MongoDB, contributing to both backend and frontend functionalities Designed and maintained RESTful APIs, implemented secure authentication and authorization, and improved database efficiency for better performance

Future Bee Digital 2023-24

NodeJS Developer

- Worked on backend API development using Node.js, Express.js, and MongoDB. Built dashboard APIs and improved database performance for better speed Designed and maintained RESTful APIs, implemented secure authentication and authorization, and improved database efficiency for better performance

Projects

**CRM
Complex360
Connecti5**

**PristinGems
POS System**

Skills

Technical skills: React.js, Next.js, Node.js, Express.js, Nest.js, RESTful APIs, MongoDB, PostgreSQL, API Integration, Deployment (Vercel, Netlify), Git/GitHub, AI Development Tools.
